## OBJECTIVE

To build a career with leading corporate of Hi-Tech environment with committed and dedicated people which will help me to explore myself fully and realize my potential and at the same time willing to work as a key player in challenging and creative environment.

## EXPERIENCE

### Assistant System Engineer

#### Tata Consultancy Services

06/2019 - Ongoing Indore, M.P

Worked on an Agile environment for developing application with test driven development.

- Working in an Event based Microservice application development process.
- Worked on performance testing using JMeter and also improved performance nearly 5 sec by optimizing queries and using asynchronous calls.
- Helped to automate test case execution for SIT.

## PROJECTS

### Cricket Fantasy App

09/2020 - 11/2020 Indore

A clone of dream11 app that lets user create a team of players for upcoming match and compete with other users to win prizes.

- Front-end of this app is developed in Android and it consumes rest endpoint.
- CodeIgniter is used at back-end for developing rest api's and also to manage admin dashboard.

### Blogging Site

06/2018 - 07/2018 Indore

A Full-Stack web application that allow user to share their thoughts and information through blog or article.

- User can choose their own choice of category.
- First this was created on core PHP but later migrated to CodeIgniter framework.

### Transport Website

09/2020 - 11/2020 Indore

A Web application which manages all movement of goods from one place to another, maintain stock, track all expenses including employee salaries.

- Fully Responsive Application built using bootstrap 4.
- Reduced all manual work for client.
- Technologies Used :- CodeIgniter, MySQL, JavaScript.
- libraries :- Dom PDF, sweetalert popups.
